

PLATE CLEANERS

MEGACLEAN: Premium, white emulsion plate cleaner & conditioner for CtP & Analog plates

MEGACLEAN UV: Premium, white emulsion cleaner for cleaning & desensitization of CtP & Analog plates using UV & EB curing inks

DIGICLEAN: Premium heavy duty emulsion cleaner for CtP & Analog plates.

CLEAN XL SUPER: General purpose emulsion plate cleaner and conditioner for CtP & Analog plates

PLATE CLEAN XL / CLEAR SCUM / CLEAN UPS / TOP CLEAN: General purpose emulsion plate cleaner and desensitizer for Analog plates.

GUMS

EZE GUM / CLEAR GUM / TOP GUM / SUPER GUM: Different grades of general-purpose desensitising gum for all plate types

STORE GUM: Premium long duration storage gum for plate preservation

XL GUM: Plate finishing gum for Digital / Analog plate processor.

PLATE MAKING CHEMICALS

SUPERDOT / POSIDOT XL: Concentrated developer and replenisher for Analog positive plates.

POSIDOT: Aqueous developer and top-up for hand or machine processing of PS positive working plates

CTP DEVELOPER / CTP REPLENISHER: Ready-to-use Developer & Replenisher for processing of Thermal CtP Plates.

OPV SERIES

HGHR 7000: Very high gloss coating for Roller coater application

WB MATT: Aqueous Matte Coating

ANTI SETOFF POWDER

SPRINKLE 20C: Anti set-off spray powder, micro encapsulated with slip agent, 15 micron

SPRINKLE 20R: Anti set-off uncoated spray powder, 15 micron

ABOUT US

We are a group of professionals engaged in the Manufacturing of OFFSET / FLEXO Printing Chemicals, keeping pace with the changing demands of the printing industry. Our vision is to help customers thrive in a changing world. The world we live in and the way we communicate are changing, and we believe in progress, growth and possibility. We want to help all our customers make their lives and businesses better with products and services that are tailored to their needs and easy to use. This means getting very close to customers, understanding them and their businesses, and establishing long-term relationships with them. We are passionate about customers and are working to meet the needs they have today and innovating to meet the needs they will have tomorrow. Our corporate identity defines the kind of company we are now and the one we need to be in the future. For more than 25 years we have built a reputation for excellence by consistently providing high quality product, at competitive prices and a steadfast commitment to exceeding customers' expectations. We understand that our business is only as successful as those of our customers, so we strive to provide exceptional products and service every time. Your compliments give us a boost & your complaints are taken very seriously (and so is the corrective action).

It shall always be our endeavor to understand and fulfill all our customer requirements. We shall marshal and direct all our resources towards this goal. Total customer satisfaction, through Quality, Consistency, Economy and Service shall be uppermost in our thoughts and deeds.

BIO GREEN UV WASH

(Eco Friendly & Non Hazardous)

CLEANS • UV Ink Rollers • UV Blankets • Combi Rollers

Bio Green UV: Wash is a vegetable oil extract & green solvents based wash and it has been developed keeping in mind the Health / Hygiene & Environment (HHE).

- ❖ A blend of vegetable oil extracts and green solvents
- ❖ It is biodegradable and eco-friendly
- ❖ Low-toxic to the health of the printers
- ❖ It has high flash point > 80°C, hence no fire hazard
- ❖ Low vapour pressure, hence less volatile
- ❖ Low VOC level therefore clean air in print shop
- ❖ No ozone depleting chemical (ODC)
- ❖ No strong odour and non-irritating to the skin.
- ❖ Not classified as a hazardous air pollutant (HAP)
- ❖ Meets all safety & regulatory requirements

FLEXO DEVELOPERS

ULTRASOL 606: Premium Quality Washout solution / Developer with Flash Point >60°C for processing photopolymer plates used in flexographic industry.

ECOSOL 333: Economical Quality Washout solution / Developer for processing photopolymer plates used in flexographic industry

FLEXO CLEANERS

FLEXO UV WASH: Excellent cleaner for UV and solvent based Flexo Inks from Anilox rollers / Plates and Machinery. May be used manually and also in automatic plate cleaning units.

FLEXO CLEANER WB: For cleaning water based inks from Anilox Rollers by both manually and in cleaning machine. This is a highly alkaline and aggressive cleaner which will penetrate deeply into the Anilox cells to clean dried inks.

US CLEANER (ULTRASONIC CLEANER): For cleaning both UV and water based Flexo Inks from Anilox rollers / Plates and Machinery. It may be used manually or in Plate cleaning units in a ULTRASONIC CLEANER after mixing with water @ 1:1.

FOUNTAIN SOLUTIONS

FOUNT SPECTRA: State of art Fountain Solution, for both conventional and alcohol dampening high speed sheet fed machine. Reduces IPA usage. Can be used with IPA substitute. Plate safe & low foaming fountain solution.

SUPER FOUNT XL: Premium, corrosion inhibited fountain solution concentrate for Universal application. Reduces IPA usage. Can be used with IPA substitute. Plate safe & low foaming fountain solution.

SUPER FOUNT / FOUNT 206: High-performance general purpose fountain solution concentrates for sheet-fed presses.

FOUNT U / CLEAR FOUNT / EZE FOUNT: Medium & Economical range fountain solution for sheet fed machines

FOUNT SUPREME SD: Premium, high-performance fountain solution concentrates for web presses with turbo & spray dampening.

FOUNT SPECTRA WEB: Premium, high-performance fountain solution concentrates for web presses with brush dampening for cold set & heat set machines.

FOUNT SPARKLE: Specially formulated fountain solution for cold-set web presses with brush dampening

MEGASOL / UNISOL: Premium, one step fountain solution concentrates for sheet-fed presses.

ALCOSAFE / BIOSAFE: Replacement additive to be used with fountain solution in place of IPA

MINI FOUNT / STAR FOUNT: Fountain solution concentrate for use for Mini Offset machines

FOUNTY CLEAN: Aqua based alkaline cleaner, for removal of inorganic growth, dried ink and paper dust in fountain circulation systems.

DEPILE: Anti-Piling additive concentrate.

DEFOAM: Anti-Foaming additive concentrate for high speed fountain

IPA SERIES

ISOHOL / ISOHOL SPECIAL / ISOHOL 305: Litho grade Superior / Good / Economical quality IPA for printing, to be added in fountain solution mixture.

WASHES

SUPER WASH 80: Odourless zero aromatic wash with flash point >80°C for use in auto and manual cleaning

SUPER WASH 60 / EXCEL WASH: Odourless zero aromatic wash with flash point >60°C for use in auto and manual cleaning

TOP WASH / CLEAR WASH: General purpose, low odour universal wash

EZE WASH / EZE WASH 503 / TRUE WASH: General purpose, water miscible blanket & roller wash

FINE WASH: General purpose ready-to-use emulsion press wash.

DAMPKLEEN SUPER / DAMPKLEEN: Specialty emulsion cleaner suitable for cleaning of cloth-covered dampner rollers

UV WASH SUPER: Premium Wash with low odour and Flash Point >60°C for cleaning UV inks.

UV WASH 70 / UV WASH / ECO UV WASH: Washes with different grades for cleaning UV inks

COMBI WASH: Multipurpose wash for cleaning both UV and Conventional inks

ULTRA XXX: Supreme rejuvenator, deglazer & conditioner for Conventional offset press blankets

ULTRA UV: Supreme rejuvenator, deglazer & conditioner for UV offset press blankets

BENSOL: Specially formulated, end of day conditioner for Offset rubber blankets

MRC 500: Premium metering roller cleaner & degreaser

D-GLAZE: Deglazer & Conditioner for Ink Rollers
