## Description & Application:

**Top Wash** is a water miscible blanket and roller wash with good emulsification and medium drying properties.

## Key Features and Advantages:

- Excellent water miscible property ensures stable emulsion.
- Low odour.
- Good corrosion protection and cleaning action.
- Excellent cleaning action ,especially for tricky colour changes
- Flash point > 40 C
- Safe on both analog and digital plates.

## Usage Instructions:

To be used neat by pouring directly onto the rollers. For blankets, water upto 50% may be added and applied onto the blankets with cloth, sponge or lint free wipes. When mixing with water always add water to solvents. Run the rollers for some time for the residual solvent to evaporate.

## Storage, Handling & Packaging:

- Storage & Handling:  
Store at room temperatures in a dry, well-ventilated area, away from direct sunlight. Keep the containers tightly closed when not in use.
- Shelf-Life:  
Best before 6 months from the date of Manufacturing.
- Packing:  
25 and 205 litres.
- Precautions:  
Use of gloves is recommended.
